

***Sexual Assault and Harassment on Campus
A Roundtable Discussion of UC Santa Barbara's Prevention and Response Efforts***

Wednesday, November 12, 2014
11:00am – 1:00pm
Engineering Sciences Building, Room 1001
University of California, Santa Barbara

Agenda

One in five women will experience sexual assault during their college career. In less than 5% of incidents the attack will be reported to law enforcement. Most frequently victims choose not to report believing the crime will not be taken seriously by authorities. Despite federal and state laws that require specific prevention education, reporting, and response activities, there are critical questions about whether campuses are doing enough to protect students. This roundtable discussion will examine efforts at UC Santa Barbara (UCSB) to improve the handling of sexual assault complaints, and to strengthen education and prevention programs.

Welcome

*Assemblymember Das Williams
Senator Hannah-Beth Jackson*

Introduction of Roundtable Participants

*Susana Abdurahman, UCSB Student and Promoting Awareness, Victim Empowerment (PAVE)
